

HEXARMOR[®] COATINGS COMPARISON

TruShield™
Multipurpose

Coating: Flow and UV cured
Interior: Permanent anti-fog
Exterior: Scratch-resistant hard coat

Anti-Fog Technology: Hydrophilic
Permanent: Yes
Hard Coat with Chemical Resistance: Yes
Application: Multipurpose coating suitable for most applications. Protects against fogging from body heat

TruShield™ 2F
Clean Environments & Hot-To-Cold Transitions

Coating: Flow and UV cured
Interior: Permanent anti-fog and scratch-resistance
Exterior: Permanent anti-fog and scratch-resistance

Anti-Fog Technology: Hydrophilic
Permanent: Yes
Hard Coat with Chemical Resistance: No
Application: Hot to cold, cold to hot transition for moderately dirty environments

TruShield™ S
Dirt & Debris, Severe Fogging

Coating: Flow and UV cured
Interior: Permanent dual action anti-fog
Exterior: Scratch-resistant hard coat

Anti-Fog Technology: Dual-action hydrophilic
Permanent: Yes
Hard Coat with Chemical Resistance: Yes
Application: Work areas with dirt and debris, more severe fogging factors

TruShield™ 2SF
Continuous Fogging

Coating: Flow and UV cured
Interior: Permanent dual action anti-fog
Exterior: Permanent dual action anti-fog

Anti-Fog Technology: Dual-action hydrophilic
Permanent: Yes
Hard Coat with Chemical Resistance: No
Application: Continuous environmental fogging
