

HEXARMOR® COATINGS COMPARISON

TruShield®
Multipurpose

Coating Flow coated

Interior Permanent anti-fog

Exterior Scratch-resistant hard coat

Anti-Fog Technology Hydrophilic

Permanent Yes

Hard Coat with Chemical Resistance Yes

Application Multipurpose coating suitable for most applications. Protects against fogging from body heat

TruShield® 2F
Clean Environments & Hot-To-Cold Transitions

Coating Flow coated

Interior Permanent anti-fog and scratch-resistance

Exterior Permanent anti-fog and scratch-resistance

Anti-Fog Technology Hydrophilic

Permanent Yes

Hard Coat with Chemical Resistance No

Application Hot to cold, cold to hot transition for moderately dirty environments

TruShield® S
Dirt & Debris, Severe Fogging

Coating Flow coated

Interior Permanent dual action anti-fog

Exterior Scratch-resistant hard coat

Anti-Fog Technology Dual-action hydrophilic

Permanent Yes

Hard Coat with Chemical Resistance Yes

Application Work areas with dirt and debris, more severe fogging factors

TruShield® 2SF
Continuous Fogging

Coating Flow coated

Interior Permanent dual action anti-fog

Exterior Permanent dual action anti-fog

Anti-Fog Technology Dual-action hydrophilic

Permanent Yes

Hard Coat with Chemical Resistance No

Application Continuous environmental fogging
